

WEST VIRGINIA BUSINESS FRANCHISE TAX

This publication provides general information. It is not a substitute for tax laws or regulations. The business franchise tax was phased out for tax years beginning on or after January 1, 2015.

GENERAL INFORMATION

- The West Virginia Business Franchise Tax, imposed by Chapter 11, Article 23 of the West Virginia Code, is a tax on the privilege of doing business in this State. The term “doing business” means any activity of a corporation, partnership or limited liability company which enjoys the benefits and protection of the government and laws of this state.
- The tax was phased out for tax years beginning on or after January 1, 2015.

PERSONS AND ORGANIZATIONS SUBJECT TO THE TAX

- All corporations, both foreign and domestic (including S corporations), partnerships and limited liability companies are subject to the tax unless specifically exempt by law. However, if an LLC has only one member and has elected to be treated as a single member LLC for federal purposes, the company is not subject to the business franchise tax. Income and expenses are reported by the single member on federal form 1040 and will be included in the federal adjusted gross income reported on the West Virginia individual income tax return.

TAX BASE

- The measure of the tax is the capital of corporations and is defined as the average of the beginning and ending balances of:
 - 1) the value of common and preferred stock;
 - 2) plus retained earnings;
 - 3) plus paid-in capital or capital surplus;
 - 4) less treasury stock.
- S corporations include the average of the accumulated adjustments account, other adjustments account and shareholders undistributed taxable income.
- The capital of partnerships is defined as the average of the beginning and ending balances of the partners’ capital accounts. These items of capital are taken from the balance sheet of the Taxpayer’s federal tax return as filed with the Internal Revenue Service for the taxable year.
- Multi state businesses will apportion an amount of capital to West Virginia using a four-factor formula consisting of payroll, property and double weighted sales factors.

TAX RATE

- Effective January 1, 2007, the tax rate is 55 cents per \$100 of taxable capital. A taxpayer who is required to file a short period annual tax return can prorate the tax liability based on the number of months reported on the tax return.
- There is a minimum tax of \$50. The minimum tax is not prorated.

FILING PERIODS / METHODS OF ACCOUNTING

- The taxable year and method of accounting are the same as those used for federal tax purposes. A corporation that files its West Virginia corporation net income tax return as part of an affiliated group is required to file a consolidated West Virginia business franchise tax return.

**FEDERAL TAX
RETURN
INFORMATION**

- As part of a full and complete tax return, W. Va. Code § 11-23-14(b) requires the taxpayer to provide a copy of pages one through four of its signed federal corporation income tax return, or its signed federal partnership return as filed with the Internal Revenue Service (Form 1120, 1120A, 1120S, 990T, or 1065).
- If filing as a member of an affiliated group for federal income tax purposes, but separately for West Virginia, the federal return requirement is satisfied with the attachment of a pro-forma federal document.
- Corporations included in a consolidated federal return must provide a copy of pages 1 through 4 of the consolidated federal return; supporting schedules showing the consolidation of its income statement and balance sheets, including schedules supporting eliminations and adjustments; a copy of federal form 851, as filed with the Internal Revenue Service and supporting schedules showing all subsidiary corporations; and a signed statement explaining the differences, if any, between the income statement and balance sheet reported for federal consolidated filing and that reported for West Virginia business franchise tax.

DUE DATE

- A corporation's annual return is due on or before the fifteenth day of the third month after close of taxable year. For partnerships, the return is due on or before the fifteenth day of the fourth month after the close of the taxable year. The filing of the return is required whether or not any tax is due.

**EXTENSION OF
TIME FOR FILING**

- An extension of time for filing Federal Form 1120, 1120S, 990T, or Form 1065, will automatically extend the time for filing the West Virginia return for the same period as the extension for filing the federal form. An extension of time for filing does not extend the time for payment of tax. Payment of any tax balance due may be made by attaching your remittance to a copy of your federal extension request. To avoid interest and late payment penalties, payment must be received on or before the due date of the return.
